Subject: Uber

Uber should be allowed to operate in SC. We in Charleston, rely on it for safe and affordable transportation.

Thank you very much,

Matt Azar

Uber is the best transportation available in SC. Take your head out of the sand and don't let the lobbyist of the Taxi association cloud your vision.

Keep Uber active and alive. Let the consumer make the choice, not bureaucracy. Demand from consumers shows that Uber is a desired service in SC.

Subject: Urber in South Carolina

I live in downtown Charleston and have come to depend on Urber. Urber and Green Car services are the only two companies I want to use. I have lived in Charleston since 1976 and the other cab companies have been bad alternatives to a private car. As a rule their cars and drivers have just not been acceptable. The drivers usually are indifferent and even hostile. Sometimes the seat belts don't even work in the cars. On paper these drivers and their cars might be regulated but in reality they are not and are not following the rules. Urber and Green Car have good operating vehicles and professional drivers who interested in costumers service. Cab Companies have never served the public in a professional way and deserve this competition.

I hope you will reconsider your decision, and withdraw your order and welcome a professional ride service for South Carolinal
